Introduction

Dear Mr. /Mrs.

We, at **Cairo Electronic Systems (CE)** would like to express our thanks to you for giving us the opportunity to introduce ourselves to your esteemed organization.

About us

Who are we?

Cairo Electronic Systems (CE) Company is an Egyptian emerging company specialized in security systems including CCTV, time attendance, access control, home automation, metal detectors, fire alarm as well as other security-related systems. **CE** started its main activity in the field of specialized electronic systems and installation. Currently, we are pioneers in the Egyptian's market with more than (10) years of experience in the field of CCTV and security systems, The reasons of our continuous success are that we strive for ensuring the quality of our products in addition to guaranteeing excellent after sale services to our customers. We always seek to choose the highly qualified and internationally accredited products, Our Staff includes the most trained engineers qualified for installing, maintaining, designing and providing after sales services for all types of CCTV & security systems. We combine experience, innovation and ambition in our staff and administration.

Cairo Electronic Systems (CE) has become the Egyptian certified distributor for many foreign electronic systems companies. As per the outstanding performance of the company, the upstream supply chain base has increased to 8 foreign partners supporting the highest quality for **CE** customers. The reason of the continuous success of the company is that **CE** strive for ensuring the quality of its products in addition to guaranteeing excellent after sale services to its customers. **CE** always seeks to choose

the highly qualified and internationally accredited products for its customers. **CE** uses brands that have been previously installed as part of the infrastructure of international airports, governmental agencies, embassies and multinational corporations.

In **Cairo Electronic Systems (CE)**, we believe that our success mainly stems from success of our customers and our contribution to that success. We would, eventually, like to assure you of our commitment to providing your organization with the best and highest technology products, our highest caliber engineers and the best of our organization technical knowledge.

Our Vision

It is not just a statement! “We believe in our capabilities and our staff”. So, we intend to be a market leader among the industry's top key players by striving to become the customers' first choice when it comes to choosing quality and cost effectiveness. Moreover we pursue highest technology, solution efficiency and exceptional customer service.

Our Mission

With our Slogan “your safety is our responsibility”. We are determined to be trusted advisor and consultant for our customers and provide them with advanced and easy to use products. We value innovation so as to guarantee business growth and continuity.
